WHAT IS A CYBER THREAT?

CYBER THREAT

- A cyber threat is something online that can:
 - steal information,
 - damage devices,
 - trick people,
 - or cause harm

The background is a dark teal gradient. In the corners, there are decorative white line-art patterns resembling circuit boards or neural networks, with lines connecting to small circles.

**HAVE YOU EVER SEEN
ANYTHING SUSPICIOUS ONLINE?**

COMMON ONLINE THREATS

Threat	Meaning
Malware	Harmful software
Phishing	Fake messages/websites
Password theft	Someone tries to steal passwords
Online scams	Tricks to steal money/accounts
Harmful content	Unsafe or inappropriate content

MALWARE

- Bad software

Type	What It Does
Virus	Spreads when users open files
Worm	Spreads automatically
Trojan	Pretends to be safe

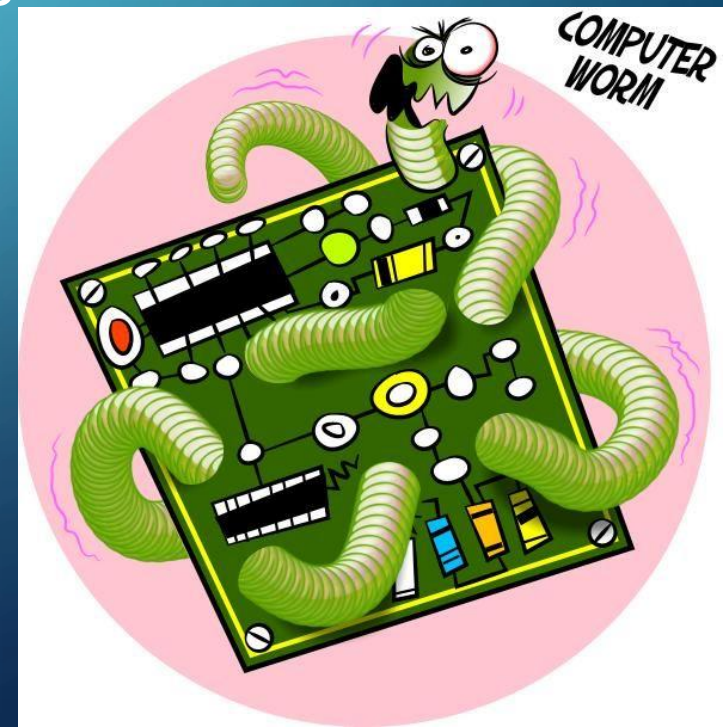

COMPUTER VIRUS

- Computer virus is a malicious program
- It may cause the user to be annoyed or to cause damage to the data or the system
- It needs user action to spread

WORMS

- Worms are malicious programs that can spread to other computers in the network by themselves
- They try to find security system weaknesses
Then quickly spread on the network
and caused severe damage

TROJAN HORSE

- A program that looks like a common program to trick users into installing and running
- Once it is used, it will start working to create different problems such as destroying the data or changing it

WHAT IS THIS?

Roblox <no-reply@roblox.com.am>

to me ▼

Dear Roblox user,

We noticed that you have changed the email address for your account "Zarcyn" from

If you did not make this change, or did so by mistake, please click this link to change

<https://www.roblox.com/login/revertAccount>

To keep your account safe, you will be asked to change your current settings.

Please do not reply to this message. If you have any questions, please contact [info@](mailto:info@roblox.com)

This message was generated by [roblox.com](https://www.roblox.com).

WHAT IS THIS?

ROBLOX

To claim your free ROBUX, you must now enter your login information so we can verify you are the account owner and check to be sure you posted on ten items.

This form will validate your login information. You can only have up to 3 failed login attempts.

PHISHING ATTACKS

- A **phishing attack** is when a scammer pretends to be someone you trust to trick you into giving away important information
- Possible clues:
 - strange link
 - urgent message
 - spelling mistakes
 - asks for password

The background is a solid teal color with a subtle gradient. In the four corners, there are decorative white line-art elements resembling circuit traces or data paths, with small circles at the end of the lines.
