

W1. Digital Citizenship & Responsible Technology Use

1. Online Information & Content

A student receives the message below in a group chat:

"FREE 10,000 Robux! Click this link now before it disappears!"

Explain:

1. Why might this message be dangerous?
2. What should the student do?

2. Inappropriate Content

You accidentally see a violent or inappropriate video online.

What are TWO responsible actions you should take?

- 1.
- 2.

Why is it important not to share inappropriate content with others?

3. Handling Content Responsibly

Read the situation below:

Your friend sends you a screenshot of another student's private conversation and asks you to repost it.

Answer the questions:

a) Is reposting the screenshot a good idea? Why or why not?

b) Which PAPA principle is most connected to this situation?

Privacy

Accuracy

Property

Access

c) Explain your choice.

4. Ownership Rights & Watermarks

A student downloads artwork from the internet, removes the artist's watermark, and reposts it as their own.

Answer the questions:

a) Why is this unfair to the original creator?

b) What should the student do instead?

c) What is the purpose of a watermark?

5. Communication Etiquette

Rewrite the message below to make it more respectful.

Original Message:

"YOUR IDEA IS SO BAD!!!"

Better Version:

6. Digital Footprint Reflection

Imagine this situation:

A student posts an angry comment online. Later, someone takes a screenshot and shares it.

What lesson can we learn from this situation?

What kind of digital footprint do YOU want to have?
