

COMPUTER SCIENCE M6

MIDTERM PROJECT: ONE-PAGE RESUME

1. PROJECT OVERVIEW

Create a one-page resume for your future university application, scholarship, internship, or dream job.

Your resume should show:

- Who you are
- What you can do
- Your future goals

You may use any design style, but your resume must be:

- ✓ Clear
- ✓ Organized
- ✓ Professional
- ✓ Easy to read

2. REQUIRED INFORMATION

Include all of the following:

Full Name

Dream Job or Future Goal

Short Profile About You

Contact Information

⚠ Use fake/safe information only.
Do NOT use your real home address or private personal information.

Education

Skills

Languages

Achievements & Certificates

Activities, Projects, or Work Experience

If you do not have work experience, include:

- School projects
- Club activities
- Volunteer work
- Competitions
- Events you helped organize

3. GRADING CRITERIA

Total: 20 Points

Content Completeness – 8 Points

All required information is included and easy to understand.

8 Points

Clean layout, easy to read, well organized.

3 Points

Design – 3 Points

Professional appearance and visual balance.

3 Points

Creativity – 2 Points

Shows personal style while remaining appropriate.

2 Points

4. IMPORTANT REMINDER

This project is **ONLY** a resume.

For the final project, you will create a **FULL PORTFOLIO** with evidence of your work, achievements, projects, and personal growth.

Show your strengths, achievements, and future goals in a professional one-page resume.
