## 02. Analyze the Change in Technology

Choose one of the given technologies and research about how did it change over the years. In the bellow boxes, add a photo of that technology that you are describing, write the approximate year when it was used. Describe how it was used, and write what was the problem with that technology.

Technologies to choose:

- telephone - mobile phone - TV - computer - car - train - camera - laptop - radio  
 -vacuum cleaner - computer mouse - memory devices - motorcycle - light bulb - up to you

What technology did you select?

When was this technology invented and by whom?

What is the main purpose of this technology?

Type 1.

What year was it used?

Describe it:

What was the problem with this technology?

Type 2.

What year was it used?

Describe it:

What was the problem with this technology?

---

Type 3.

What year was it used?

Describe it:

What was the problem with this technology?

---

Type 4.

What year was it used?

Describe it:

What was the problem with this technology?
