# Final Project - A day with me/My daily life

---

Your **final project** is very simple. **Create a video about you, your daily life**, how you usually spend your day... Or can be something more creative, I will leave it up to you to decide it, but it has to be something **about you**.

This is a **ONE PERSON PROJECT**. It is okay if you are doing something together with other students, but each one of you should have their own video, from their own perspective.

**Length** of the video should be **between 5-7 mins**, no need to go more than that. You can use **any software or program** that you want, which ever is easier for you.

In the video you **should be speaking in English** but you can also in Thai. If you speak in Thai you will have to add subtitles.

The video should contain following parts:

- **Introduction** - at the begining you introduce yourself by saying your Class, Class No and nickname or name (about 20-30 sec)
- **Content** - this is the main part of the video, it's about your daily life, you are free to do this part how ever you want
- **Ending** - at the end just show a short message where it writes "This video was made for Computer Science subject as a final project. (NEW LINE) M6/16 (NEW LINE) 2023/2024"

To **submit** the video you have few options:

- Upload on **YouTube** and set it as unlisted (Only people with link can see it) and then send me the link
- ~~Upload the video on LMS Learning platform (max 100MB)~~
- Send it to my **E-mail**: msimic.yep@gmail.com
- Send it to my **Line** (QR code below)

If you have any questions you can always contact me.
